

D & L C Agenda Item 12. d.

24th March 2021

Hello Milly and Gary

As you will both recall, £13,000 of the LDF that had been available for the Cornwall Gateway CNA was to be re-directed to the creation of the community hub at Torpoint library. There were a few other revisions to allocations across the county and so all were brought together to create one report. And then covid work took over.

I am now writing to advise that Director's approval has been secured for the request and it is now working through finance and legal before a formal offer can be made. But progress is being made and I will keep you posted.

With kind regards
Catherine
