

Shekinah Quarterly Newsletter

Fundraising News

What a start to the New Year it has been! Here at Shekinah we are determined to see the positives in everything we do.

We are continuing to shout out about our current fundraising appeals as much as possible. If you haven't already please check out 'Move for Change'. For this appeal we want you to set yourself a personal challenge! It can be anything from walking 10,000 steps a day to climbing Mount Everest at home, the challenges are endless!

Kristy has set herself her own personal challenge of 122 miles for Shekinah! This is the same distance from North Devon to Land's End.

Please sponsor her if you can!

Please visit our website for inspiration as there are many people completing their own challenges.

In other fundraising news!

With the Government's announcement and the end of lockdown in sight please keep an eye out for upcoming events later in the year!

If you are a keen golfer there could be an event for you soon!

If you are able to and would like to raise funds for Shekinah, here are a few more ideas how you could raise money for us:

Have a donation tin in your school, shop or business.

In other news!

Leonard Stocks Centre Torquay

It's business as usual at the hostel for staff and residents who are supported 24 hours a day. Although there is a reduced service from many outside agencies we still continue to have the weekly support of the GP, Practice Nurse, Drug & Alcohol service, Psychiatric doctor and Liver specialist nurse. These are all so invaluable to the service.

Shekinah's Drop-in Centre

Good news! Bath Street has been open since November 2020 with a new and improved way of helping people to move forward. The results have been great! No longer is it a drop in centre.

We are an appointment based centre (ABC lol). The Rough Sleepers team (PATH) is now part of the Shekinah family, working in close collaboration to focus on those people with complex issues who are out on the streets, helping to build relationships and offer them appropriate accommodation and holistic longer term plans to rebuild lives.

Shekinah Grow has welcomed a new member to the team. Please welcome Glen!

Really great to have RHS qualified florists offering opportunities.

They are very excited about the workshops they are planning for Spring and Summer 2021! Grow has welcomed Tiny Utopia to the community! We were delighted to provide reindeers for their Christmas window display and we will be producing items for their window display in the Spring.

Charity Shops

Unfortunately due to current national lockdown, both of our charity shops are closed.

Make Amends

We're currently writing our Impact Report which will reflect our last 3 years of providing restorative justice.

After winning the Howard League for Penal Reform award for restorative practices in October last year, we're planning an online national event with the team at Howard League for the end of April.

We're also part way through delivering free Restorative Justice training for Stonehouse Residents as part of a Home Office project.

Shekinah's Painting and Decorating

team have been commissioned to restore the Brunel Statue from Pennycomequick Roundabout. What do you think?
