

Additional information – for April 2021 Council meeting (Tuesday 6th April 2021)

The good news for this month is the continued low crime figures for the area. I have noticed an increase of incidents recorded for public safety. I believe these have more than likely increased due to calls with reference to alleged COVID 19 breaches although I haven't checked them all. Hopefully with the slow easing of the national restrictions we will see this particular figure decline.

The Easter weekend across the area increased public footfall however I don't believe the same problems were encountered (particularly at Tregantle) as we experienced earlier in the year. Local council officials were requested to assist in traffic congestion – which they did and was very much appreciated.

Many thanks
