

So it is with deep regret that my last working day of such an experience will be FRIDAY 28th MAY 2021.

But don't worry you won't get rid of me that easily Ha Ha, as I have volunteered to help out in the Library cafe kitchen. Miss you all already.

Yours Respectfully
Marion.

MONDAY 19th APRIL 2021

Dear Milly

As you know I have suffered with back pain for many years and finally got an answer two years ago as to why, my coris is trapping a nerve in my spine and due to the nature of my job has got progressively worse over the last few years. So it is with much regret I feel it is time for me to hang my cleaning cloths out to dry and put my mops and buckets away for good and take the much DREADED RETIREMENT, I don't want to (as I know I will hate it) but for the sake of my health I feel I have to. It has been an enormous pleasure helping to prepare and take part of the social events and many functions that have been held over the years, and I will really miss being part of these. I have loved being part of such a strong team and all it entailed.
