**Subject:** Please can you help Cornwall's Climate Stories?

Hello there

I hope all's well ... and apologies for the group email. I just wanted to get in touch to see if you might be able to help us with the next step of the Cornwall's Climate Stories series?

We've launched an all or nothing' Crowdfunder aiming to cover the costs of production + educational materials for the next documentary in the series. You can read all about it here:

<https://www.crowdfunder.co.uk/cornwalls-climate-stories>

The aim is to get everybody on board with tackling the climate crisis – and we believe that means understanding more about how it's going to affect the places where we live, and being inspired by the local people who are already working to tackle it.

Our first film, *Under the Surface*, focusing on the marine environment, has been seen almost 6,000 times and has had an amazing response from local schools. Our second film, *Plenty More Fish?*, looking at how climate change is going to affect the Cornish fishing industry, is due out in June, in time for screening at the G7 Fringe event, during the meeting of world leaders in Cornwall.

If you can make a donation to help us that would be absolutely wonderful. Even if you can't donate it would be incredibly helpful if you could **share** the Crowdfunder with any friends, family or networks who could support us. If we don't reach our target we don't get anything....

There are posts to share on Facebook (Cornwall Climate Care), Twitter (@ClimateCornwall), Instagram (cornwallclimatecare) or LinkedIn (Cornwall Climate Care)

With many thanks in advance for any support you can give us!

Claire

*If you do not wish to receive future emails from Cornwall Climate Care please respond to this email writing UNSUBSCRIBE in the subject line*
