Subject: Obstruction on York Road
Attachments: PXL_20210526_090120147.jpg

I'm sure you are aware that York Road is notorious for difficulty in access and parking. However at 10am today 26/05/21 I encountered parking that would cause an obstruction to emergency vehicles. I drive a van that is the same size as an ambulance and I can usually go through York Road. Today I could not. Although it is impossible to say which of the two vehicles arrived second, it is impossible to pass between the two in a vehicle the same size as an ambulance. It is of particular concern because the customer I was delivering to has had to call an ambulance out for themselves due to a serious incident in recent years.

Please can you forward this to any relevant party.

I have attached a photo for your reference.

Kind regards

Daniel Valko, Sainsburys online delivery driver.
