Subject: Cornwall Gateway Climate Change Working Group

Information Classification: CONTROLLED

Dear all

As part of its priority setting, the Cornwall Gateway Community Network Panel has highlighted “climate change and environmental sustainability” as a key issue and following this an action was agreed to establish a working group.

I am therefore writing to seek a representative from your town/parish council and/or a representation from a local group who would be keen to engage in the proposed Cornwall Gateway Climate Change Working Group.

The intent is for this to be an informal group at this stage which I hope will provide an opportunity to share ideas, information and create a platform for networking. The first meeting (and maybe subsequent meetings) will be held virtually – ideally by the end of August. The frequency of future meetings will be considered when the group meets, but I would not envisage anything more than quarterly at this stage.

Can you advise who you would wish to suggest from your area to attend this group – either a parish/town councillor and/or a local group - and provide me with the relevant email addresses? I will then write to all with details of the first meeting.

I look forward to hearing from you.

With kind regards
Catherine
