Subject: Re: Thanckes park works?

Hi Rebecca,

Thank you for getting back to me so quickly.

It is very worrying that someone has taken it upon themselves to bring a vehicle, equipment and a trailer on to the park and just help themselves to it's resources.

More worrying, that part of the park has a large number of bats living in it.

There used to be a bollard that prevented such access to the park, but that has recently been removed and not replaced. I fear that this has perhaps encouraged people to see the park as an easy place to access fuel over the winter months.

They have however left a large amount of branches behind which Will regretfully need to be removed, but strangely didn't touch the fallen tree.

Could a new bollard possibly be put back in to prevent such an occurrence in the future? We truly want to make the park help provide for its future by using its wood for chippings and other projects. If it is stolen we will never be able achieve this.

Thank you again for looking into this.

Regards

Keiran Moon

Hi Keiran,

This is what I've had back so far – doesn't look like it was us...

Hi Becs,
I am not aware of any of our teams going into Thanckes Park and cutting up wood.
We haven't sent them there. I doubt if it is the Tree gangs as they are always busy with more urgent works.
Cheers,
Wayne

Hiya – did we do this/take the wood, or has someone else pinched it?!
cheers

Subject: Thanckes park works?

Hi Rebecca,

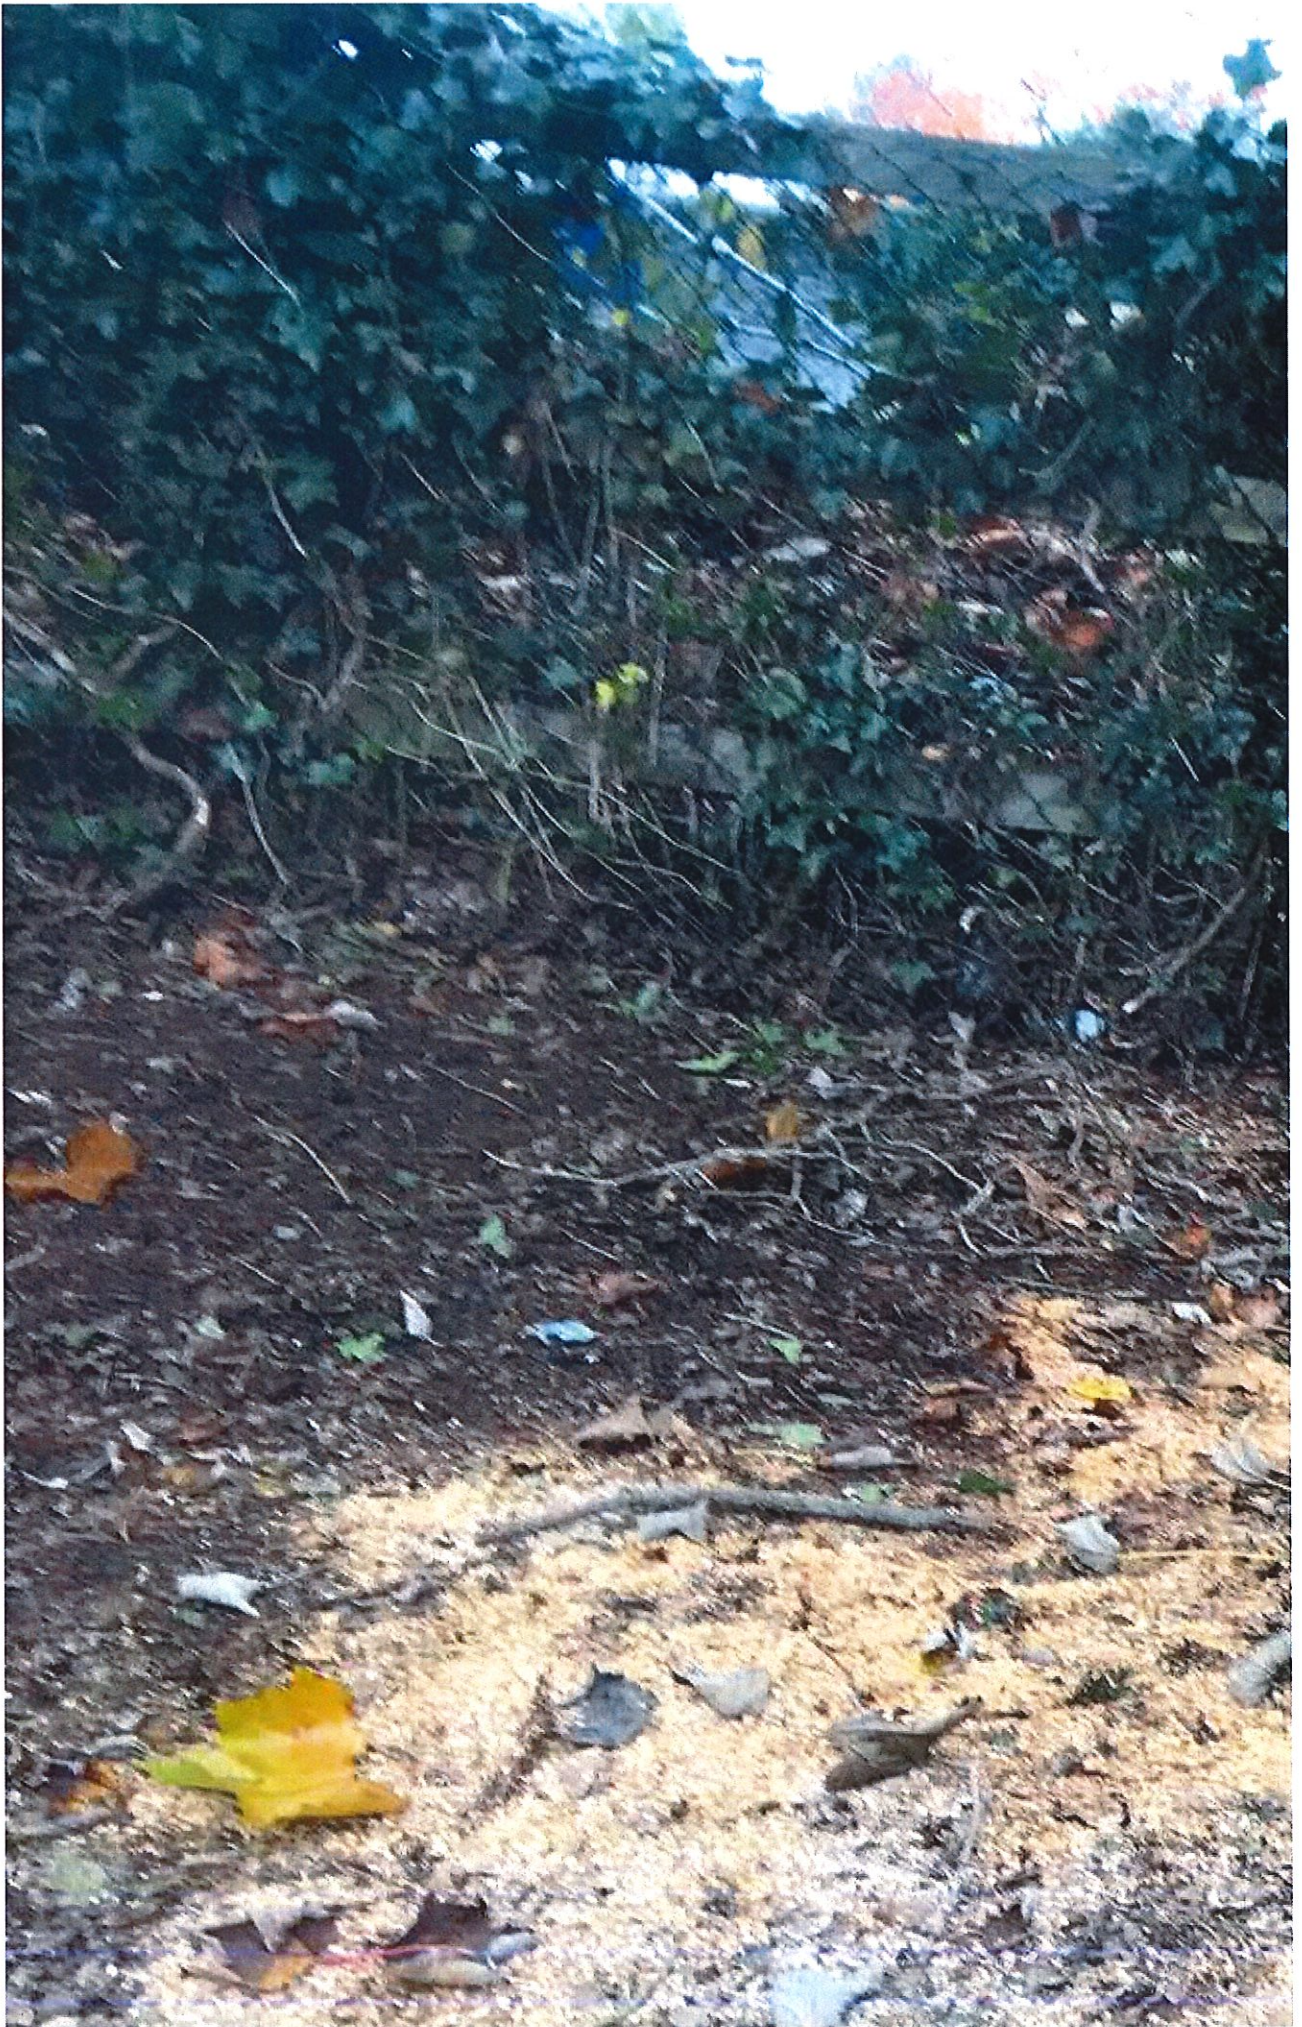

I hope this email finds you well?

Last Friday work was undertaken at Thanckes park to thin out the trees around the quarry area's encroachment on the grassed area.

The fallen tree hasn't been taken, and the wood that was stacked up has been taken and not chipped. I just wanted to check if this was Cormac or if we have a local helping them selves to wood from the park.

Regards

Keiran Moon
