

Police Update for March 2022 Council meeting

You will see for this month's figures that the Stalking and Harassment figures have risen from 0 – to – 6, compared to last year. Please remember this crime category covers a large amount of offences where a course of conduct is reported. This can be done in numerous ways including phone calls and text messages. I have checked the reported crimes in this category and don't believe this will be an ongoing upward trend.

As you are aware Ollie (Tri-Service Safety Officer) is now fully with us and has reported, besides completing his police commitments this month, he has also attended 7 ambulance calls, several fire safety checks and linked in with Adult Social Care to assist in providing support for the community.

Many thanks
Steve
