Good morning Milly

Just following up on our discussion the other day, I just wanted to float some ideas, I am very interested in expanding on the success of the ZINNS brand and building the coffee/drinks side of the business as I feel this is where the strength lies, clearly Tregantle works well for the VW Van but I believe they within the local community and the opportunity for the whole community to engage with exercise, outdoor space and coffee Thanks park offers an amazing opportunity and comes at a time that would hopefully see a resurgence for the tennis courts. (I know I would like my children to use them like I did!)

My inspiration and ideas are a couple of Cornish companies similar to myself who are doing it well (I have attached some screen grabs of their setup Cubs Coffee/Hangout.

I have attached a couple of screen grabs of the container styles I am thinking of so you can see my vision.

Just something to think about for the future. Have a look at the images I have attached and let me know what you think.

Best wishes

Simon
