Subject: Fwd: Cornish Buildings Group Buildings at Risk Project

Dear Supporter

Just a reminder there are fresh posts on our buildings at risk blog.

[Cornish Buildings Group 'Buildings at Risk' Project – caring for Cornwall's heritage \(wordpress.com\)](#)

Newsletter 15 has been released today which highlights the plight of some much valued village buildings as well as a country house, a brewery and a former ice works. This has recieved coverage in teh *Western Morning News*

Newsletters #14 and #13 provide an update of our ongoing project activities in 2022 plus there are feature blog posts on a **country house for sale** and **Cornish pubs at risk**.

Finally, after the success of the Christmas Harewood House post Richard Grylls has posted an article on **Lewarne**, a once grand Gothic pile in the Glynn valley - now sadly lost.

Please share this with your networks.

The sorry state of St Day Carpenter's Shop

Kind regards
Paul
