Subject: Fwd: Crowdfunding Box for Defib TAFC

Hi All

Please see below from the TAFC. i am happy for us to donate from the defib fund.

Could the TTC also help with this so we don't waste funding on VAT.

Do we need to wait until a full council meeting to request this?

Regards

Jen

Good morning Jenny,

Attached is our invoice from Duchy Defibrillators with an ongoing yearly monitoring fee of £190. At this time we have raised £80 towards this crowdfunding.

Thanks again for any consideration.

Hi Michael

With the support of the Town Council, Town Partnership, Torpoint Coop, the Lions and Cornwall Councillors the Torpoint Defib Team (local volunteers) has been fundraising for a few years now to purchase additional 24hr AEDs for the town.

We have already had a unit fitted at Costcutter and are purchasing a mobile unit for using at town events but have been aware the area around the TAFC and Trevorder Road did not have adequate cover.

After trying to negotiate, unsuccessfully, for 2 years with the Royal Navy to situate a device on their building in Trevorder Close we were delighted to see the TAFC had managed to secure a 24hr device.

We can see that Fleet have helped with funding for the unit but thought we could help with some funding towards the installation fee.

Could you let us have some details of the costing and I am sure we can assist.

Regards

Jenny Hughes

Hi Jenny,

I'm the treasurer at Torpoint AFC. John has been in touch and mentioned the possibility of some funding for our recently installed defibrillator. As I think you may have seen we have attempted a crowdfund for this but some way short atm.

If you are able to help in anyway then it would be greatly appreciated and we would promote this on social media if suitable (it may encourage some further donations).

Happy to provide any costings if required or any other info.

Kind Regards
Michael Roberts
