: Good afternoon

I have been successful in hiring Bouncy Castle Hire and provided inflatables for an event last year in Torpoint.

Asking to a lot of the public, they said the local community really enjoyed the bouncy castles I supplied.

Wondering if on a regular basis I could hire out some green space to provide inflatable fun days for the local community.

These events in Plymouth and they are very popular and successful and something different to entertain the community.

I would like to host these events on several weekends throughout the summer months and weekdays in the school grounds.

I am currently in the Royal Navy and due to leave the service within the next 6 months so hoping to expand my business as much as I can.

I have public liability insurance, all of my inflatables meet UK safety standards and are all tested annually and I'm happy to provide proof.

I would be glad to hearing from you.
