**Subject:** Pick a litter mile

Hi All!

We hope you're having a super summer!

We're running a new campaign this August to help us learn more about litter in Cornwall. We want to find out answers to questions such as:

- What kind of litter is being found?
- Where is it being found?
- How much is being found?
- Which brands / materials / types of litter are most common?

We're asking all the litter picking legends that have registered with us to take part to help further our understanding of the litter problem in Cornwall and how we can tackle it.

Here's how to join in:

- Register a litter pick with us as usual (not necessary if you have your own equipment and disposal arranged)

- Access our litter pick recorder on your smartphone using our website - or this link: <https://eu.jotform.com/app/221384007485354>
- We recommend that one member of your litter picking group does the recording, while the rest shout out what they are finding. Alternatively, you can do the pick as usual, and then empty the bags out to identify the litter before you dispose of it.
- Take photos during your pick! It would be great if we could see what is being found
- Once you have finished the litter pick, hit submit on the form and email any photos to us

Your input would be greatly appreciated in this campaign and we hope you keep up the excellent litter picking work that you've registered with us previously.

Many thanks,

Jade
