**Subject:** Town Regeneration & Investment Programme

Information Classification: PUBLIC

Dear all

I wanted to make you aware that the **Town Regeneration and Investment Programme (TRIP)**, which is part of the delivery of the UK Shared Prosperity Fund in Cornwall, has gone live. A PR statement is due, but I wanted to give you insight **now** as it's a very small window to apply.

The aim of TRIP is to regenerate towns and high streets across Cornwall. Grant funding between £2,500 - £500,000 is available for projects that can contribute to this aim and boost local business growth and productivity.

All information and guidance on the scheme can be found on this weblink (this also contains the link to the online application portal) - <https://www.cornwall.gov.uk/business-trading-and-licences/economic-development/town-regeneration-and-investment-programme/>. The closing date for applications is **5pm 30 June 2025** and below is an overview of the priorities and key information for this grant.

If there are any questions from yourselves or potential applicants about the scheme, please email them to [TRIP@cornwall.gov.uk](mailto:TRIP@cornwall.gov.uk).

#### TRIP priorities

1. **Focus on Town Centres:** Projects that help improve the social and economic life of a Cornish town, especially the town centre or high street. Proposal should also support the growth and productivity of local businesses.
2. **High Street Revitalisation:** Projects that make a real difference to the high street or main business area of a town or large community in Cornwall. Projects should link to local plans like Neighbourhood Plans, Town Investment Plans, or local planning policies.
