Support with Carbon Footprinting and Reduction Planning – Carbon Sense

Attachments:

Carbon Sense - A4 information_July 2025 (1).pdf

Dear Torpoint Town Council,

I'm contacting you on behalf of Carbon Sense to help you and your Councillors learn how carbon foot printing and reduction planning can be made straightforward, locally relevant, and achievable — while also identifying opportunities to make savings through more efficient use of energy, resources, and operations.

Many councils across Cornwall are now seeking to turn their Climate Emergency commitments into measurable action. We can assist with:

- Carbon foot printing helping you understand and quantify your council's emissions
- Carbon reduction planning identifying achievable, locally relevant actions
- Engagement and reporting supporting communication with residents and stakeholders

Our approach is tailored to the scale and remit of local councils, with a focus on pragmatic steps, local context, and transparency. Whether you're just starting out or refining existing plans, we're happy to share tools, templates, and advice to help you move forward with confidence.

To explore how we can support your council, you're invited to book a free 30-minute discovery session with Andrew Robinson, Director of Carbon Sense: 3 Book a session here

If you have any questions or would prefer to arrange a meeting directly, feel free to get in touch.

MISSION STATEMENT

We empower our clients to understand and reduce their carbon footprint, adopt sustainable business practices, and develop pathways to a decarbonised, positive future.

CLIENT TESTIMONIALS

Carbon Sense are an excellent company to work with – they go the extra mile!

Jon Brown Manager We highly recommend Carbon Sense, who were easy to work with and highly knowledgeable in carbon measuring and reporting.

Laura Highton Director

Carbon Sense have been pivotal on our carbon reduction journey, navigating us through legal requirements and public expectation, providing knowledge and experience at every turn, highly recommended.

John Spreadbridge Estates Manager I found the team to be very knowledgeable. I initially tried using a larger, more corporate business, which failed to provide us with a quality service.

Mark Hopkins Director

PROUDLY WORKING WITH
