Subject: Parking Violations

Good morning,

I am yet again contacting you regarding the excessive parking violations taking place outside the Kings Arms. These violations are being conducted by residents and owner of the HMO's within what was the Kings Arms.

This I believe has been addressed before but obviously greeted with complete ignorance. Personally, I would now like to see more severe penalties issued.

As you can see from the photos attached there are continued offenders and also vehicles now blocking private parking spaces..

I look forward to hearing from you..

Kind Regards
