Subject: Safer Cornwall Have Your Say Survey 2026

Information Classification: PUBLIC

TO: South East Cornwall Community Area Partnership

Dear All – Please see information below regarding the Have Your Say Survey for 2026 which is now live.

Dear all

The **Have Your Say Survey for 2026 is open** – residents of Cornwall are invited to share their views in Safer Cornwall's **annual survey about crime and anti-social behaviour**.

The survey can be found [here on the Let's Talk Cornwall website](#) and will be available until Sunday, 31st August. The **survey is being widely promoted** on social media, in partners' newsletters and at local engagement events. We would **appreciate your support in getting it out to the widest possible audience** so please promote it amongst your teams and local networks and encourage the people that you work with and/or support to take part. We are aiming to get up to 1,000 responses and achieve a good cross-section of our residents.

Feedback from the survey will help partners identify **the issues having the greatest impact** on communities and inform their ongoing work. As the survey is conducted every year, it also provides valuable insight into **how concerns and experiences change** over time. Results from previous surveys are available on the [Safer Cornwall website](#).

Many thanks

Erika
