

Agenda 14th

COUNCIL  
20/08/26

From Bob Wilkey (Antony resident)

Via email: 14 August 2026

Council members will no doubt have seen the heart breaking scenes of the fire at Stourbridge yesterday. Do they now think it is time to cut the grass borders along Marine Drive (and elsewhere in town) which are now beyond a disgrace and a clear fire risk?

I have just spent a week or so in France and it is so refreshing to see the pride taken by communities rather than the scruffy, woke, and ridiculously pointless rewilding policy here. We all know it's just virtue signalling in the name of cutting costs and services. Please make it stop!
