20 October 2026 – Email from Antony Estate

Hi Milly

Just in case of public curiosity, it would be worth you knowing what we're doing along the Horson Straight (A374 west of the cemetery). The dilapidated and partially overgrown fence here is being removed. Over the winter we will be planting a new hedge along the same line, after first erecting a new protective double fence each side of it. It was actually a particular wish of Sir Richard's to see this done, and after a few years it should look wonderful.

Best wishes

William
