Subject: Notification of repair works: BT subsea cable across River Tamar

General

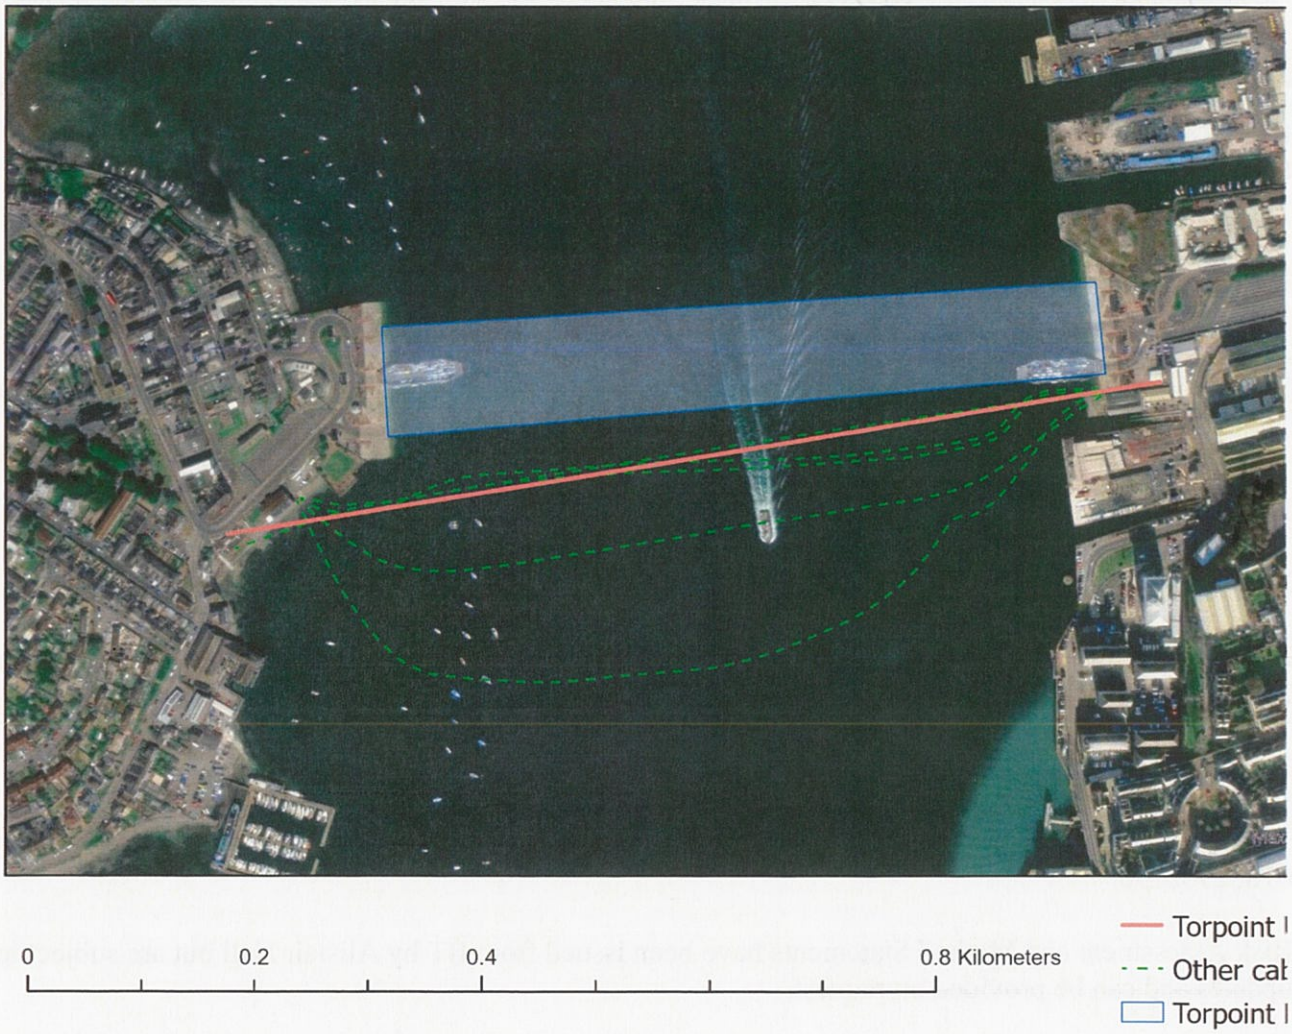

Notification of repair works: BT subsea cable across River Tamar.

Dear all,

Please accept this as notification that BT will be undertaking subsea cable repair works starting on Thursday 26th November 2026.

Point of Contact for the works:
Steven Morgan,
steven.morgan@bt.com
07882962150

Risk Assessment and Method Statements have been issued from BT by Alistair Hall but are subject to updates and can be provided on request.

Summary of Planned Works:

- **Type of activity:** Subsea cable repair
- **Purpose:** Restore service following a confirmed fault on the cable system
- **Location:** As above google map image

Further info:

- Maximum water depth across the river is 22m.
- The marine lay length is approximately 830m box-to-box.
- Liaison with the ferry operator will be required. Southern ferry route is only 15m from the duct exit point.

Yours sincerely,

Steven Morgan
Subsea Marine Engineering Specialist
